

Hydrogen Peroxide Foam – Technician's Notes

Advance Preparation

Chemicals

Hydrogen Peroxide (H_2O_2 , 30%, 100 V)

Detergent solution (this is best watered down or it just sits on top of the H_2O_2)

Potassium Iodide (KI)

Vegetable Pieces (potato and celery are really good!)

Equipment

2 x 100 ml Measuring cylinders

2 x Plastic pipettes

Spatula

Tray

Water

Preparation Instructions

1. Make sure all equipment and chemicals listed above are available.
